JETTING INSTRUCTIONS

Jetting requirements will vary due to climate, altitude and engine modifications. The following is only a starting point.

Using our expansion chambers, we suggest with stock air cleaners a starting point of (one) size over stock. The use of a less restrictive type air cleaner may warrant additional jetting changes. If you have further concern, we recommend you contact your local Kawasaki dealer.

Box 408 / Rural Route #2 / Princeton, Illinois 61356 / Phone 815 / 875-3354
